

### ST. LUCIA

#### METER MARKS

BY STEVE ZIRINSKY

I have these two meter covers which I put aside. The meter imprint is printed on the envelope (w/o value). One time with a typical cds and the other with an added meter.

Very odd I think. Comments would be interesting.

### ST. LUCIA

#### REGISTRATION

BY ALISTER KINNON

I have recently acquired the cover illustrated, which I what I believe to be an unreported registration handstamp. It was posted at Vieux Fort on the first day of issue of the King George VI definitives in 1938.

I would be interested to hear of any earlier sightings.
