Welcome to Newsletter #3, our first of 2013. This newsletter includes some recently noted St. Vincent promotional markings, with direct links to where they are featured on our website. With some very interesting things happening in the Pacific, we've included information on the Marshall Islands, revealing more questions than answers, as well as information on meter mail in the region, this time from Guam. Finally, there's new postal rate information from the Solomon Islands as well as Micronesia local rates.

Our blog has lots more to share on these and other issues. Please take a look, comment and enjoy!

St. Vincent Promotional Marking 2012

Recently noticed promotional marking from [St. Vincent](#).

Click on the image to see more promotional markings.

Postal Rate Information

[Solomon Islands](#) as well as [Micronesia](#) local rates since postal independence are new additions.

A New Zealand Revenue that is elusive.

Guam Official Mail Meter

Meter mail from the Pacific isn't easy to find (think [Samoa](#), [FSM](#), [Vanuatu](#), [PNG](#)). American territories, such as [Guam](#) also have metered mail- and there is official mail as well.
